

BODDUPALLY KARTHIK

Aspiring Data Science Engineer

 [9014478173](tel:9014478173) | [Portfolio](#) | karthikboddupally0@gmail.com | [LinkedIn](#) | [GitHub](#)

Summary

Final-year B. Tech student in Computer Science (Data Science) with a CGPA of 9.19. Hands-on experience building and deploying ML and Deep Learning projects using Python, PyTorch, Flask, and MediaPipe. Developed a real-time sign language translator and a Bitcoin price forecasting.

Technical Skills

- Programming Languages: Python, C
- Frameworks & Libraries: scikit-learn, NumPy, Pandas, OpenCV, MediaPipe, Matplotlib, Tkinter
- Tools: VS Code, Tableau, Microsoft Power BI
- Databases: MySQL
- Additional: Data Structures and Algorithms, Machine Learning

Projects

SIGN LANGUAGE TRANSLATOR | [Github](#)

July 2025

- Built a full-stack web app for real-time sign language recognition using a Bidirectional LSTM (PyTorch) trained on custom webcam gesture sequences, achieving live sentence prediction with MediaPipe hand tracking and text-to-speech output.
- Tech stack: Python, PyTorch, Flask, MediaPipe, OpenCV, pyttsx3, HTML/CSS/JavaScript.

BITCOIN PRICE PREDICTION | [Github](#)

May 2026

- Built a Bitcoin price forecasting desktop app using Linear Regression (scikit-learn) with feature engineering — momentum indicators, 3-day moving averages, and day-of-week patterns — delivering 7-day predictions with RMSE accuracy metrics via a Tkinter GUI.
- Tech stack: Python, scikit-learn, NumPy, Pandas, Matplotlib, Tkinter.

Education

Bachelor of Technology in Computer Science

2023-2027

Sreyas Institute of Engineering and Technology

- Specialization in Data Science CGPA: 9.19/10

[VIEW MEMO](#)

Intermediate Education

2021-2023

Narayana Junior College

- Major in Mathematics, Physics, Chemistry. Percentage: 94.7%

[VIEW MEMO](#)

Primary Education

2011-2021

Narayana concept School

- Primary and secondary education under the SSC board. Percentage: 100%

[VIEW MEMO](#)

Experience

● RCI-DRDO | Jun - Sep 2026 | On-Site

Selected for a 3-month internship at Research Centre Imarat (RCI), DRDO, Hyderabad, working on Technology Validation of Data Warehouse Architecture for RCI's Intranet

● Future Interns | May – June 2026 | [VIEW CERTIFICATE](#)

Completed a 1-month virtual internship program applying Python and Power BI for data analysis, statistical problem-solving, and data-driven decision-making.

Certifications

- "Introduction to Machine Learning" by the Swayam-NPTEL
- "Programming, Data Structures and Algorithms using Python" by the Swayam-NPTEL
- Completed Power BI workshop — data visualization and dashboard building

Achievements

- Awarded **Certificate of Excellence for being the Best Student in the Level-1 Hackathon** conducted by Supraja Technologies.

November 2024 | [VIEW](#)

- Awarded a **Letter of Recommendation** by Future Interns recognizing professionalism and technical excellence in Data Science & Analytics.

June 2026 | [VIEW](#)
